

CA 4 – High-Fidelity Interactive Prototype

Objective

Convert your previously designed application or website (from CA 1–CA 3) into a High-Fidelity Interactive Prototype using Figma, Adobe XD, or Sketch.

Requirements

- Use the same project selected in earlier CAs
- Create high-fidelity UI screens
- Add interactive prototyping
- Show proper user flow

Required Screens (Any 5)

1. Login / Signup Screen
2. Home Screen / Dashboard
3. Product or Service Details Screen
4. Profile / Settings Screen
5. Cart / Booking / Payment Screen

Prototype Requirements

- Clickable buttons
- Navigation between screens
- Smooth transitions
- Basic interactions and animations

Deliverables

1. Figma / Adobe XD project link
2. Interactive prototype link
3. PDF or PNG export of screens

Rubrics for Evaluation (50 Marks)

Criteria	Marks
High-Fidelity UI Design	10
Prototype Interactivity	10
User Experience (UX)	10

Design Consistency	5
Creativity & Innovation	5
Presentation & Submission	10
Total	50
